In addition to these, Community Health Choice believes you have the right and responsibility to:

**Rights**

1. A right to receive information about the organization, its services, its practitioners and providers and Member rights and responsibilities.
2. A right to be treated with respect and recognition of your dignity and your right to privacy.
3. A right to participate with practitioners in making decisions about your health care.
4. A right to a candid discussion of appropriate or medically necessary treatment options for your conditions, regardless of cost or benefit coverage.
5. A right to voice complaints or appeals about the organization or the care it provides.
6. A right to make recommendations regarding the organization’s member rights and responsibilities policy.

**Responsibilities**

7. A responsibility to supply information (to the extent possible) that the organization and its practitioners and providers need in order to provide care.
8. A responsibility to follow plans and instructions for care that you have agreed to with their practitioners.
9. A responsibility to understand your health problems and participate in developing mutually agreed-upon treatment goals, to the degree possible.

You have a right to tell us what you think of the rights and responsibilities offered to you. Tell us what you think at 1.888.760.2600.

**New Technology Assessment**

We provide for care that is shown to be safe and useful. We review new health care treatments. We review new procedures. The review uses up to date health data. This is called new Technology Assessment. We decide whether to pay for these things. This review means we pay when safety and value is clear. You may ask us to review new technology. The Texas Vendor Drug Program reviews medications.

**Utilization Management Decisions**

Community follows guidelines to determine what health care services we cover. This is called, utilization management. We know how important it is that we make the right decisions for your care. Community follows three principles when we make these decisions:

1. Our decisions are based only on whether or not:
   - The care and services are appropriate.
   - It is a covered benefit.
2. We do not reward doctors or anyone else for denying coverage.
3. We do not give incentives to doctors or anyone else to encourage them to make decisions that would mean you would get less care than you need.
4. If Community denies your request for services, you can get an independent external review. An independent review is when someone not employed by Community reviews your request for services. This is called an Independent Review Organization (IRO).

**Quality Improvement**

Our Quality Improvement Department helps Community give you the best clinical care and service possible. If you want more information about our Quality Improvement Program, please contact Member Services toll-free at 1.888.760.2600.

Primary Care Providers for CHIP Members and CHIP Perinate Newborn Members

References to “you,” “my” or “I” apply if you are a CHIP Member. References to “your child/my child” apply if your child is a CHIP Member or a CHIP Perinate Newborn Member.

What do I need to bring to my/my child’s doctor’s appointment?
When you/your child goes to see the doctor, take your/your child’s:

- CHIP Perinatal Member ID Card or CHIP Member ID Card
- List of problems you/your child is having
- Your/your child’s shot record

EXCEPT IN AN EMERGENCY, CALL YOUR CHILD’S PRIMARY CARE PROVIDER FIRST BEFORE GOING FOR HEALTH CARE.

What is a Perinatal Provider or Primary Care Provider?
Your/your child’s Perinatal Provider or Primary Care Provider is an important part of the Member’s health care team. Your/your child’s Perinatal Provider or Primary Care Provider will follow-up with the specialist or hospital or when you/your child receives care from someone else. You/your children need to see your child’s Perinatal Provider or Primary Care Provider regularly for checkups and care.

Your/your child’s Primary Care Provider should be the “medical home” for all of the Member’s medical records. The Primary Care Provider needs to know everything about the Member’s past and present health care needs. Make sure the Primary Care Provider has all of the Member’s medical records. If the CHIP or CHIP Perinatal Member is a new patient, help the Primary Care Provider get the Member’s medical records from the Member’s previous doctor. You may need to sign a form giving permission for the Member’s medical records to be sent to the CHIP or CHIP Perinatal Member’s new Primary Care Provider.

You can pick any Primary Care Provider in the Community Health Choice network to be your doctor. You should pick a Primary Care Provider within an office location and office hours that are convenient for you. If you like the Primary Care Provider that you see now, you can continue to see them if they are listed in the directory.

Once you pick your Primary Care Provider, please call Member Services toll-free at 1.888.760.2600. We will assign your selected Primary Care Provider as your main doctor.

For a current directory, go to CommunityHealthChoice.org > Find a Doctor > Medicaid/CHIP > Find a Provider > Enter your information > Search. You can find a doctor By Provider’s Specialty, By Provider’s Name or By Provider’s County.

It is important that you get to know your Primary Care Provider, and your Primary Care Provider get to know you. It is not good to wait until you are sick to pick and meet your Primary Care Provider.

We can help you schedule your first checkup and get transportation to your doctor’s office. Call Member Services toll-free at 1.888.760.2600.

How can a CHIP or CHIP Perinatal Newborn Member change their Primary Care Provider?
Call our Member Services at 713.295.2294 or toll-free at 1.888.760.2600. You can also change it online at www. CommunityHealthChoice.org. When you change the Member’s Primary Care Provider, we will send the Member a new Community Health Choice CHIP or CHIP Perinatal Member ID Card. It will list the new Primary Care Provider’s name, address, and phone number.

Can a clinic be my/my child’s Primary Care Provider? (Rural Health Clinic/Federally Qualified Health Center)

How many times can I change my/my child’s Primary Care Provider?

Community Health Choice Texas, Inc.

When will a Primary Care Provider change become effective?
When you call us to change your Primary Care Provider, we will make the change in our computer system while you are on the phone. The effective date of the change will be the first of the next month. We will also send you a new Member ID Card right away.

Are there any reasons why a request to change a Primary Care Provider may be denied?
Here are reasons why your request to change your Primary Care Provider may be denied:

- Primary Care Provider you picked is not seeing new patients
- Primary Care Provider you picked is not in our network

Go to CommunityHealthChoice.org or your Provider Directory to find another Primary Care Provider. Or call our Member Services for help.

Can a Primary Care Provider move me or my child to another Primary Care Provider for non-compliance?
Yes, for these reasons:

- You do not follow the Member Responsibilities listed in this Member Handbook
- You do not follow the Primary Care Provider’s health care recommendations
- The CHIP Member misses three appointments within six months, and you do not call the Primary Care Provider ahead of time
- You are rude, abusive or do not cooperate with the CHIP Member’s Primary Care Provider or the office staff
- The CHIP Member’s Primary Care Provider no longer accepts CHIP patients

Our Member Services will call you and help you get a new Primary Care Provider for you/your child.

What if I choose to go to another doctor who is not my/my child’s Primary Care Provider?
Except in emergencies, always call your/your child’s Primary Care Provider before you go to another doctor or to the hospital. You can call your/your child’s Primary Care Provider or back-up doctor 24 hours a day, seven days a week. If you/your child goes to another doctor who is not the Primary Care Provider, you may need to pay the bill while you are there or you may have to sign a form that says you will pay the bill.
How do I get medical care after my/my child’s Primary Care Provider’s office is closed?
Call your/your child’s Primary Care Provider office. You can reach your/your child’s Primary Care Provider or a back-up doctor 24 hours a day, seven days a week. Or you may call our 24-Hour Medical Advice line at 1.888.332.2730. Our nurses can help you/your child get the right health care. In an emergency, call 9-1-1 or go to the nearest emergency room.

Physician Incentive Plan information
Community Health Choice cannot make payments under a physician incentive plan if the payments are designed to induce providers to reduce or limit Medically Necessary Covered Services to Members. You have the right to know if your Primary Care Provider (main doctor) is part of this physician incentive plan. You also have a right to know how the plan works. You can call 1.888.760.2600 to learn more about this.

Changing Health Plans

What if I want to change health plans? How many times can I change health plans?
For CHIP Members
You are allowed to make health plan changes:
• for any reason within 90 days of enrollment in CHIP and once thereafter;
• for cause at any time;
• if the client moves to a different service delivery area; and
• during the annual CHIP re-enrollment period.
Who do I call?
For more information, call the CHIP Help Line toll-free at 1.800.964.2777.

For CHIP Perinatal Members
You can ask to change health plans:

- for any reason within 90 days of enrollment in CHIP Perinatal;
- if the Member moves into a different service delivery area; and
- for cause at any time.

Attention: If you meet certain income requirements, your baby will be moved to Medicaid and get 12 months of continuous Medicaid coverage from date of birth.

Your baby will continue to receive services through the CHIP Program if you meet the CHIP Perinatal requirements. Your baby will get 12 months of continuous CHIP Perinatal coverage through his or her health plan, beginning with the month of enrollment as an unborn child.

Once you pick a health plan for your unborn child, the child must stay in this health plan until the child’s CHIP Perinatal coverage ends. The 12-month CHIP Perinatal coverage begins when your unborn child is enrolled in CHIP Perinatal and continues after your child is born.

If you live in an area with more than one CHIP health plan, and you do not pick a plan within 15 days of getting the enrollment packet, HHSC will pick a health plan for your unborn child and send you information about that health plan. If HHSC picks a health plan for your unborn child, you will have 90 days to pick another health plan if you are not happy with the plan HHSC chooses.

If you have children covered by CHIP, their health plans might change once you are approved for CHIP Perinatal coverage. When a Member of the family is approved for CHIP Perinatal coverage and picks a perinatal health plan, all children in the family that are enrolled in CHIP must join the health plan providing the CHIP Perinatal services. The children must remain with the same health plan until the end of the CHIP Perinatal Member’s enrollment period, or the end of the other children’s enrollment period, whichever happens last. At that point, you can pick a different health plan for the children.

When will my health plan change become effective?
If you call to change your health plan on or before the 15th of the month, the change will take place on the first day of the next month. If you call after the 15th of the month, the change will take place the first day of the second month after that. For example:

- If you call on or before April 15, your change will take place on May 1.
- If you call after April 15, your change will take place on June 1.

Can Community Health Choice ask that I get dropped from their health plan for non-compliance, etc.?
Yes. We can request that you be disenrolled, if you:

- Move out of our service area
- Enter a hospice or long-term care facility
- Are not eligible for Medicaid
- Enroll in another plan
- Do not follow our policies and procedures
- Allow your Member ID Card to be misused
- Are disruptive, abusive or do not cooperate with our staff or doctors or other Providers

We might also request HHSC to end your membership after letting you know, if you:

- Miss three appointments in a row over six months
- Do not follow our policies and procedures
- Allow your Member ID Card to be misused
- Are disruptive, abusive or do not cooperate with our staff or doctors or other Providers
Concurrent Enrollment of Family Members in CHIP and CHIP Perinatal and Medicaid Coverage for Certain Newborns

If you receive CHIP Perinatal benefits and have other children enrolled in the CHIP Program, they will be moved to Community Health Choice. Copayments, cost-sharing, and enrollment fees still apply for those children enrolled in the CHIP Program. Copayments do not apply to the CHIP Perinatal benefits.

An unborn child who receives CHIP Perinatal benefits will be moved to Medicaid for 12 months of continuous Medicaid coverage, beginning on the date of birth, if the child lives in a family with an income at or below the Medicaid eligibility threshold.

An unborn child will continue to receive coverage through the CHIP Program as a “CHIP Perinate Newborn” after birth if the child is born to a family with an income above the Medicaid eligibility threshold.

Please see the “CHIP Evidence of Coverage Benefits” book that came with your handbook. It explains the limits to your benefits and what benefits are not covered.

What are copayments? How much are they, and when do I have to pay for them?
Copayments are the amount that a CHIP Member has to pay to get certain health care services. Copayments for medical services or prescription drugs are paid to the health care Provider at the time of service. Your CHIP Member ID card lists the copayments that apply.

CHIP Members who are American Indian or Alaskan Native are exempt from all cost-sharing obligations, including enrollment fees and co-pays. If you are American Indian or Alaskan Native and your ID card shows a co-pay requirement, call our Member Services department toll-free at 1.888.760.2600 to have this corrected.

What is emergency medical care?
FOR CHIP MEMBERS AND CHIP PERINATE NEWBORN MEMBERS

What is an Emergency, an Emergency Medical Condition, and an Emergency Behavioral Health Condition?
Emergency care is a covered service. Emergency care is provided for Emergency Medical Conditions and Emergency Behavioral Health Conditions. “Emergency Medical Condition” is a medical condition characterized by sudden acute symptoms, severe enough (including severe pain), that would lead an individual with average knowledge of health and medicine to expect that the absence of immediate medical care could result in:

- placing the Member’s health in serious jeopardy;
- serious impairment to bodily functions;
- serious dysfunction of any bodily organ or part;
- serious disfigurement; or
- in the case of a pregnant CHIP Member, serious jeopardy to the health of the CHIP Member or her unborn child.

“Emergency Behavioral Health Condition” means any condition, without regard to the nature or cause of the condition, which in the opinion of an individual, possessing average knowledge of health and medicine:

- requires immediate intervention or medical attention without which the Member would present an immediate danger to himself/herself or others; or
- renders the Member incapable of controlling, knowing, or understanding the consequences of his/her actions.
What is Emergency Services or Emergency Care?
“Emergency Services” and “emergency care” mean health care services provided in an in-network or out-of-network hospital emergency department, free-standing emergency medical facility, or other comparable facility by in-network or out-of-network physicians, Providers, or facility staff to evaluate and stabilize Emergency Medical Conditions or Emergency Behavioral Health Conditions. Emergency services also include any medical screening examination or other evaluation required by state or federal law that is necessary to determine whether an Emergency Medical Condition or an Emergency Behavioral Health Condition exists.

What should a CHIP or CHIP Perinate Newborn Member do in an emergency?
• Go to the nearest hospital emergency room.
• Call 9-1-1 if you/your child needs help getting to the hospital.
• Call your/your child’s Primary Care Provider within 24 hours, or as soon as possible, to let them know and so they can give you/your child follow-up care.

**What if I/my daughter needs OB/GYN care?**

**FOR CHIP MEMBERS AND CHIP PERINATE NEWBORN MEMBERS**

You/your daughter may receive prenatal care without a referral. The OB/GYN must notify us of pregnancy care visits. If you/your daughter is pregnant, call the CHIP Member’s CHIP case worker, and our Member Services right away.

**Attention Members:**
You have the right to pick an OB/GYN for yourself/your daughter without a referral from your/your daughter’s Primary Care Provider. An OB/GYN can give you:

- One well-woman checkup each year
- Care related to pregnancy
- Care for any female medical condition
- Referral to a special doctor (specialist) within the Community Health Choice network

Community Health Choice allows you/your daughter to pick an OB/GYN, whether that doctor is in the same network as you/your daughter’s Primary Care Provider, unless you choose a Provider who is a part of a Limited Provider Network (LPN).

**Limited Provider Network–OB/GYN**

A Limited Provider Network (LPN) is a group of doctors and other Providers who only refer patients to others in the same LPN. If you choose a Provider who is in an LPN to be your Primary Care Provider, then your Primary Care Provider will only refer you to Providers (doctors, specialists, hospitals) in the LPN. If the CHIP Member’s Primary Care Provider is in our LPN, we have limited your selection of an OB/GYN for you/your daughter to the same network as your/your daughter’s Primary Care Provider. The Member’s Primary Care Provider and OB/GYN must be part of the same “limited network.” Call our Member Services if you have questions.

You/your daughter can choose any OB/GYN listed in our CHIP Provider Directory under “Women’s Health Services Providers.” If you/your daughter does not see their OB/GYN in the directory, call our Member Services. We are always adding new doctors. After you/your daughter has chosen an OB/GYN Provider, call our Member Services and tell us the name of the OB/GYN.

You/your daughter can make an appointment with any of our OB/GYN unless your/your daughter’s Primary Care Provider is in our Limited Network. If you/your daughter are in our Limited Network, you can make an appointment with any of our OB/GYN in our Limited Network. You/your daughter do not need a Primary Care Provider’s referral to see our OB/GYN. It is very important for a CHIP Member to choose a doctor to take care of her while she is pregnant.
How soon can I/my daughter be seen after contacting the OB/GYN for an appointment?
Your OB/GYN must see you within 14 days from your request. Prenatal care must be provided within 14 days of request, except for high-risk pregnancies or new Members in the third trimester, for whom an appointment must be offered within five days, or immediately, if an emergency exists.

You do not need a referral. Your OB/GYN must request referral authorization for some tests and procedures.

Can I/my daughter stay with our OB/GYN if the OB/GYN is not with Community Health Choice?
Yes. If you became eligible for CHIP in the last three months of your pregnancy, you are allowed to see your current OB/GYN. If your OB/GYN is not a part of our network, please let us know so we can try to work with the Provider to ensure that you are able to continue to see the Provider. You may only see doctors and midwives who are Texas CHIP Providers.

What if I am pregnant?
You may receive prenatal care without a referral. Your OB/GYN must request referral authorization for some tests and procedures. Your OB/GYN must notify Community Health Choice of pregnancy care visits.

Who do I need to call?
Please call 2-1-1.

A CHIP Member who is determined to be eligible for Medicaid must apply for Medicaid. If a CHIP Member is not eligible for Medicaid, HHSC will extend the CHIP Member’s eligibility period to ensure that you continue coverage during your pregnancy and through the end of the second full month following the month of the baby’s birth. Newborns of CHIP Members are automatically enrolled in the mother’s health plan at birth. Infants who are Medicaid-eligible are NOT eligible for CHIP.

What other services/activities/education does Community Health Choice offer pregnant women?

What if I get a bill from my doctor?
You might get a bill if you go to a doctor who is not with Community Health Choice. You might also get a bill if you received treatment in an emergency room if it is not an emergency. If you get bills for services that are not covered, the CHIP Program will NOT pay these bills.

Always show your CHIP/CHIP Perinatal Member ID Card when you/your child gets medical services from a doctor who is with Community Health Choice.

Who do I call?
If you get a bill for covered services, call the Provider and give them the information on your CHIP/CHIP Perinatal Member ID Card.
What information will they need?
They will need information that is on Your Member ID Card and information on the bill. If you still have a problem, call our Member Services.

What do I have to do if I/my child moves?
As soon as you have your new address, give it to the local HHSC benefits office and Community Health Choice Member Services Department toll-free at 1.888.760.2600. Before you get CHIP services in your new area, you must call Community Health Choice, unless you need emergency services. FOR CHIP MEMBERS AND CHIP PERINATE NEWBORN MEMBERS
MEMBER RIGHTS AND RESPONSIBILITIES
MEMBER RIGHTS
1. You have the right to get accurate, easy-to-understand information to help you make good choices about your child's health plan, doctors, hospitals and other Providers.
2. Your health plan must tell you if they use a “limited Provider network.” This is a group of doctors and other Providers who only refer patients to other doctors who are in the same group. “Limited Provider network” means you cannot see all the doctors who are in your health plan. If your health plan uses “limited networks,” you should check to see that your child's Primary Care Provider and any specialist doctor you might like to see are part of the same “limited network.”
3. You have a right to know how your doctors are paid. Some get a fixed payment no matter how often you visit. Others get paid based on the services they give to your child. You have a right to know about what those payments are and how they work.
4. You have a right to know how the health plan decides whether a service is covered and/or medically necessary. You have the right to know about the people in the health plan who decide those things.
5. You have a right to know the names of the hospitals and other Providers in your health plan and their addresses.
6. You have a right to pick from a list of health care Providers that is large enough so that your child can get the right kind of care when your child needs it.
7. If a doctor says your child has special health care needs or a disability, you maybe able to use a specialist as your child’s Primary Care Provider. Ask your health plan about this.
8. Children who are diagnosed with special health care needs or a disability have the right to special care.
9. If your child has special medical problems, and the doctor your child is seeing leaves your health plan, your child may be able to continue seeing that doctor for three months, and the health plan must continue paying for those services. Ask your plan about how this works.
10. Your daughter has the right to see a participating obstetrician/gynecologist (OB/GYN) without a referral from her Primary Care Provider and without first checking with your health plan. Ask your plan how this works. Some plans may make you pick an OB/GYN before seeing that doctor without a referral.
11. Your child has the right to emergency services if you reasonably believe your child's life is in danger, or that your child would be seriously hurt without getting treated right away. Coverage of emergencies is available without first checking with your health plan. You may have to pay a copayment, depending on your income. (Copayments do not apply to CHIP Perinatal benefits.)
12. You have the right and responsibility to take part in all the choices about your child's health care.
13. You have the right to speak for your child in all treatment choices.
14. You have the right to get a second opinion from another doctor in your health plan about what kind of
treatment your child needs.

15. You have the right to be treated fairly by your health plan, doctors, hospitals, and other Providers.

16. You have the right to talk to your child’s doctors and other Providers in private, and to have your child’s medical records kept private. You have the right to look over and copy your child’s medical records and to ask for changes to those records.

17. You have the right to a fair and quick process for solving problems with your health plan and the plan’s doctors, hospitals and others who provide services to your child. If your health plan says it will not pay for a covered service or benefit that your child’s doctor thinks is medically necessary, you have a right to have another group, outside the health plan, tell you if they think your doctor or the health plan was right.

18. You have a right to know that doctors, hospitals, and others who care for your child can advise you about your child’s health status, medical care, and treatment. Your health plan cannot prevent them from giving you this information, even if the care or treatment is not a covered service.

19. You have a right to know that you are only responsible for paying allowable copayments for covered services. Doctors, hospitals, and others cannot require you to pay any other amounts for covered services.

MEMBER RESPONSIBILITIES

1. You and your health plan both have an interest in seeing your child’s health improve. You can help by assuming these responsibilities.

2. You must try to follow healthy habits. Encourage your child to stay away from tobacco and to eat a healthy diet.

3. You must become involved in the doctor’s decisions about your child’s treatments.

4. You must work together with your health plan’s doctors and other Providers to pick treatments for your child that you have all agreed upon.

5. If you have a disagreement with your health plan, you must try first to resolve it using the health plan’s complaint process.

6. You must learn about what your health plan does and does not cover. Read your Member Handbook to understand how the rules work.

7. If you make an appointment for your child, you must try to get to the doctor’s office on time. If you cannot keep the appointment, be sure to call and cancel it.

**What are my rights and responsibilities?**

**FOR CHIP PERINATE MEMBERS**

**MEMBER RIGHTS AND RESPONSIBILITIES**

**MEMBER RIGHTS**

1. You have a right to get accurate, easy-to-understand information to help you make good choices about your unborn child’s health plan, doctors, hospitals, and other Providers.

2. You have a right to know how the Perinatal Providers are paid. Some may get a fixed payment no matter how often you visit. Others get paid based on the services they provide for your unborn child. You have a right to know about what those payments are and how they work.

3. You have a right to know how the health plan decides whether a Perinatal service is covered or medically necessary. You have the right to know about the people in the health plan who decide those things.

4. You have a right to know the names of the hospitals and other Perinatal Providers in the health plan and their addresses.

5. You have a right to pick from a list of health care Providers that is large enough so that your unborn child can get the right kind of care when it is needed.

6. You have a right to emergency Perinatal services if you reasonably believe your unborn child’s life is in danger, or that your unborn child would be seriously hurt without getting treated right away. Coverage of such emergencies is available without first checking with the health plan.

7. You have the right and responsibility to take part in all the choices about your unborn child’s health care.

8. You have the right to speak for your unborn child in all treatment choices.

9. You have the right to be treated fairly by the health plan, doctors, hospitals, and other Providers.

10. You have the right to talk to your Perinatal Provider in private, and to have your medical records kept private. You have the right to look over and copy your medical records and to ask for changes to those records.

11. You have the right to a fair and quick process for solving problems with the health plan and the plan’s doctors, hospitals and others who provide Perinatal services for your unborn child. If the health plan says it will not pay for a covered Perinatal service or benefit that your unborn child’s doctor thinks is medically necessary, you have a right to have another group, outside the health plan, tell you if they think your doctor or the health plan was right.

12. You have a right to know that doctors, hospitals, and other Perinatal Providers can give you information about your or your unborn child’s health status, medical care, or treatment. Your health plan cannot prevent them from giving you this information, even if the care or treatment is not a covered service.

**MEMBER RESPONSIBILITIES**

You and your health plan both have an interest in having your baby born healthy. You can help by assuming these responsibilities.

1. You must try to follow healthy habits. Stay away from tobacco and eat a healthy diet.
2. You must become involved in the decisions about your unborn child’s care.

3. If you have a disagreement with the health plan, you must try first to resolve it using the health plan’s complaint process.

4. You must learn about what your health plan does and does not cover. Read your CHIP Perinatal Program Handbook to understand how the rules work.

5. You must try to get to the doctor’s office on time. If you cannot keep the appointment, be sure to call and cancel it.

6. You must report misuse of CHIP Perinatal services by health care Providers, other Members, or health plans.

7. You must talk to your Provider about your medications that are prescribed.

If you think you have been treated unfairly or discriminated against, call the U.S. Department of Health and Human Services (HHS) toll-free at 1.800.368.1019. You also can view information concerning the HHS Office of Civil Rights online at www.hhs.gov/ocr.

**When does CHIP Perinatal coverage end?**

Your baby will continue to receive CHIP Perinatal benefits if you meet the requirements. If you do not meet CHIP Perinatal benefit requirements, your baby will be moved to Medicaid and get 12 months of continuous Medicaid coverage from date of birth.

**Will the state send me anything when my CHIP Perinatal coverage ends?**

Please contact our Member Services for any information on special healthcare needs. Members with special healthcare needs have direct access to a Community Health Choice in-network specialist.

**What if I am too sick to make a decision about my medical care?**

If you have not named a surrogate, your doctor will ask your closest available relative or friend to help decide what is best for you. Because those people may not all agree with what to do with your care, it is helpful if you say in advance what you want to happen if you can’t speak for yourself.
What are advance directives?
Advance directives are legal papers that allow you to say if you would accept or refuse medical treatment if you become too ill to speak for yourself. These papers can help your family decide what to do for you to relieve them of the stress of making the decision for you. It also helps the doctor care for you according to your wishes.

How do I get an advance directive?
Ask your doctor for the form(s) for advance directives. Call our Member Services Department toll-free at 1.888.760.2600 if you need more information.

Your Privacy Rights with Respect to your Health Information

Right to Inspect and Copy Your Health Information — In most cases, you have the right to look at your PHI/SPI. You can get a printed copy of the record we have about you. It can also be given to you in electronic form. There might be a charge for copying and mailing.

Right to Amend Your Health Information — You can ask Community to change facts if you think they are wrong or not complete. You must do this in writing. We do not have to make the changes. If we deny your request, we will do so within 60 days.

Right to an Accounting of Disclosures — You can ask for a list of certain disclosures of your PHI/SPI. The list will not include PHI/SPI shared before April 14, 2003. You cannot ask for more than six years. The list can only go back three years for electronic PHI/SPI. There are other limits that apply to this list. You might have to pay for more than one list a year.

Right to Ask For Restrictions — You can ask us not to use or share part of your PHI/SPI for treatment, payment or health care operations. You must ask in writing. You must tell us (1) PHI/SPI you want restricted; (2) if you want to change our use and/or disclosure; (3) who it applies to (e.g., to your spouse); and (4) expiration date.

If we think it is not best for those involved, or cannot limit the records, we do not have to agree. If we agree, we will only share that PHI/SPI in an emergency. You can take this back in writing at any time.

If you pay in full for an item or service you can ask a Provider to not share PHI/SPI with Community for payment or operations purposes. These are the main reasons we would need it. This does not apply if we need the PHI/SPI for treatment purposes.

Right to Receive Confidential Communications — You can tell us where and how to give you your PHI/SPI. You can ask us to only call at a certain number. You can also give us another address if you think sending mail to your usual address will put you in danger. You must be specific and put this in writing.

Right to Choose Someone to Act for You — If you have given someone medical power of attorney or if someone is your legal guardian, that person can exercise your rights and make choices about your health information. We will make sure this person has this authority and can act for you before we take any action.

Right to a Copy of this Notice — You can ask for and get a copy of this Notice at any time, even if you have received this Notice previously or agreed to receive this Notice electronically.

Right to Withdraw an Authorization for Disclosure — If you have let us use or share your PHI/SPI, you can change your mind at any time. You must tell us in writing. In some cases, we might have already used or shared it.

Right to be Notified of Breach — You will be told if we find a breach of unsecured PHI/SPI. The breach could be from either Community or a Business Associate of Community.

**Texas Law on Medical Treatment of Minors and Related Consent Issues**

Community follows federal and state law and guidelines on issues of consent to medical treatment. Generally, minors cannot consent to medical treatment. As a general rule, Community must obtain consent from a minor child’s parent prior to authorizing medical treatment.

There are certain exceptions to the general rule. For example, a minor child who has been “emancipated” or legally declared an “adult” by the courts can make their own medical decisions. Other exceptions include but are not limited to: (1) emergency situations; (2) active duty with the armed forces; (3) consent for treatment of infectious diseases reportable to the Texas Department of State Health Services; (4) unmarried pregnant minors consenting to treatment for pregnancy; (5) treatment for drug and alcohol abuse; (6) counseling for abuse, suicide prevention, or drug addiction; and (7) other exceptions as permitted by law.

If you have any questions about these exceptions, please contact Community at 1.888.760.2600.
