New Health Plan Options for Members who Qualify for Medicare and Medicaid

TEXAS Health and Human Services

Join the upcoming webinar to learn more.

The Texas Health and Human Services Commission (HHSC) invites members receiving Medicaid and Medicare, and their families, to attend an upcoming webinar to learn and ask questions about Integrated Dual Eligible Special Needs Plans (Integrated D-SNPs).

Effective Jan. 1, 2027, HHSC is expanding the Integrated D-SNP model for members who qualify for Medicare and Medicaid. The Integrated D-SNP options will be available in Bexar, Dallas, El Paso, Harris and Hidalgo counties.

What does this mean for members?

These members have more Integrated D-SNPs to choose from during the 2027 Medicare annual enrollment period (Oct. 15-Dec. 7, 2026).

Members who enroll in an Integrated D-SNP will:

- Get their Medicare and STAR+PLUS Medicaid coverage through the same health plan company.
- Have one member ID card.
- Have one place to go for coverage information.
- Have one process for complaints and appeals.

Before changing plans, the member is encouraged to ask the new health plan company if his or her current providers will be available in the plan's network.

Oct.19
2–3 p.m.

Registration is required.
