Summary of Medicaid Covered Benefits

Your Texas Medicaid program is through the Texas Health and Human Services Commission (HHSC). Refer to your Texas Medicaid ID Card for contact information.

When a person is entitled to both Medicare and medical assistance from a State Medicaid plan, they are considered dual eligible. As a dual eligible beneficiary, your services are paid first by Medicare and then by Medicaid. Your Medicaid coverage varies depending on your income, resources, and other factors. Benefits may include full Medicaid benefits and/or payment of some or all of your Medicare cost-share (premiums, deductibles, coinsurance, or copays).

Below is a list of dual eligibility coverage categories for beneficiaries who may enroll in the Community DualCare Access (HMO D-SNP) Plan:

- **Qualified Medicare Beneficiary (QMB):** Medicaid pays for your Medicare Part A and Part B premiums, deductibles, coinsurance, and copayment amounts only. You receive Medicaid coverage of Medicare cost-share but are not otherwise eligible for full Medicaid benefits.

As a QMB beneficiary enrolled in this Plan, your cost-share is 0%, except for Part D prescription drug copays. (See previous Summary of Benefits table for an overview of your **Community DualCare Access (HMO D-SNP)** Plan benefits and cost-sharing responsibilities.)
